

Plus Admin - Astra vs Gemini UI Comparison

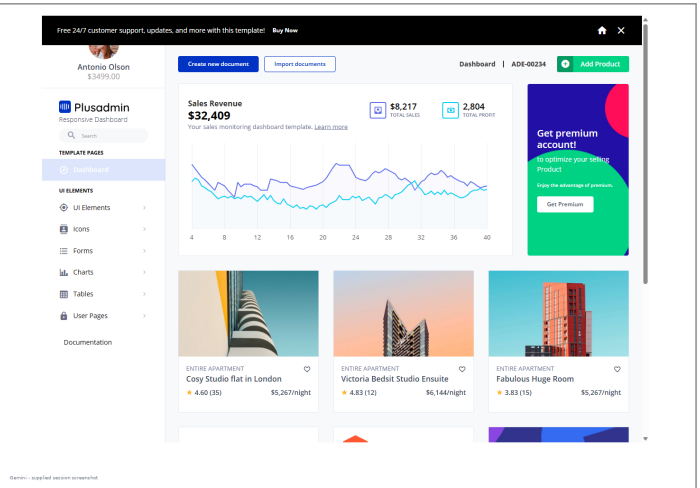

The report focuses on areas where the submitted Astra and Gemini versions differ. Chromium did not complete local rendering for this bundle. Gemini's desktop view uses the supplied session screenshot; other app views are explicitly labeled representative captures from the submitted HTML/CSS. Code-change screenshots are direct diffs of the supplied final files.

Desktop comparison - changed dashboard treatment

Astra

Gemini

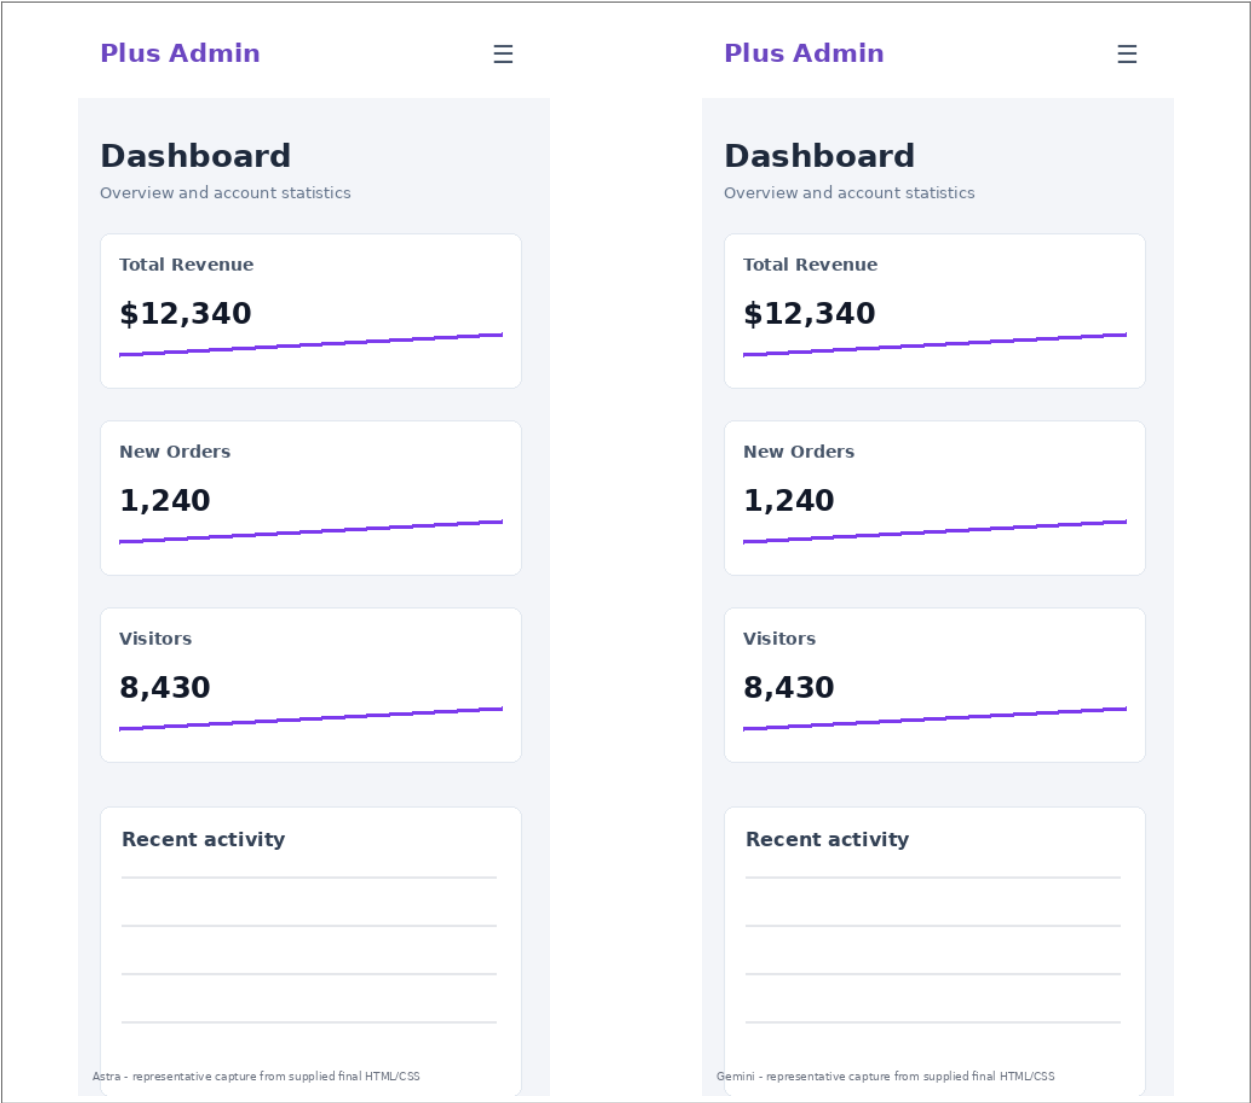

This page emphasizes differences in dashboard styling, typography, card treatment and spacing while preserving the distinction between supplied screenshot evidence and representative rendering.
